Q:

What is “Summer Blend” gas?

A:

Mandated by the state, this gas is formulated for less evaporation during warmer months. That means less vapor pollution and more efficiency for your vehicle.

Q:

Is “Summer Blend” more expensive to make?

A:

Yes. According to the National Association of Convenience Stores, “The production process takes longer and, second, the overall yield of gasoline per barrel of oil is lower. These complexities add as much as 15 cents per gallon to the cost to produce these higher-grade fuels.”
